

*Security Summit 2021 - Virtual Event returns in a larger, improved and more ambitious format*

**One of the largest virtual industry events in Europe, Security Summit 2021 – Virtual Event Conference and Exhibition** will once again open its doors in an online format starting May 4<sup>th</sup> through May 6<sup>th</sup> 2021. This has been announced by **a&s Adria magazine, Security Summit organizing board and their partners** who are inviting all participants, sponsors and media outlets to attend the event that will focus on B2B networking, business matchmaking, education and exhibition,

Security Summit 2021 is a place at which the industry professionals and experts from these industry niches and verticals from Europe and the rest of the world will gather to present their products, solutions and services, share expertise and enter new partnerships. The participants' pool includes manufacturers, distributors, system integrators, installers and project managers, security managers, SME owners, decision-makers, representatives of government security agencies as well as end-users.

**Attendees are invited to register [here](#), download an event brochure and find additional information.** Registration for the event is **free of charge**.

To stress the importance of linking businesses, Security Summit 2021 Virtual Event invites all of its current and future business partners to try out its B2B networking program that supports the companies in their search for future partners. These B2B sessions are planned in an **online format from 9 AM until 5 PM on all days of the Summit**. You can sign up for free for this business matching event via <https://pro.connect2bnet.com/signup>

#### **Types of industries that will be covered at Security Summit 2021:**

- Smart Solutions
- Mobility
- Cyber Security
- ICT, IoT & Automation
- Security & Safety
- **Training & Education<sup>1</sup>**

#### **Why Security Summit Is One of the Key Online Industry Events in Europe**

The event's innovative concept, creative design, easy and practical registration and attendance process have been recognized by numerous participants who are expected to return in even higher numbers in 2021.

Its simulation of the conference and exhibition halls and side events, as well as a fast, direct and informative platform for arranging meetings delighted many and cemented the event's status as one of the largest European online trade events in the security, smart technology, cyber security, IoT and other industries.

Continually increasing numbers of participants are a testament to the reputation, quality and dedication that the organizer of Security Summit brand has been building.

#### **Why Our State-of-the-Art Online Event Platform Is the Backbone of Our Success**

Our innovative platform simulates the physical space of premises used for live trade shows and conferences. The user simply logs in and enters the exhibition hall with virtual stands. The virtual stand has all the promotional materials one needs i.e. brochures, professional articles, videos, business cards, contacts and other information.

In this way, the visitor can get all the necessary information he/she needs, and, more importantly, immediately get in touch with the relevant person from management, sales, marketing or technical departments of an organization of their choice. Every profile gives a valuable insight into the represented company, thus prompting other visitors to cooperate with it.

### **Why You Should Participate:**

1. **Networking** (B2B virtual meetings with peer professionals)
2. **Education** (live sessions, keynote speeches, case studies, and side events)
3. **Exhibition** (brand awareness, product placement)

Official Language: English

Detailed agenda of the event is available on <https://vsecuritysummit.com/agenda/>.
