

## **Climbing the Regional Technology and Business Summit - Adria Security Summit 2022 Returns to Zagreb in October**

Adria Security Summit 2022 Powered by Intersec, a renowned regional annual conference and exhibition in Southeast Europe, returns to the Croatian capital of Zagreb in two months on **October 5-6, 2022**. The host venue is the **Zagreb Fair complex, Pavilion 7**.

The Summit will offer a rich program dealing with physical security, cyber security, Internet of Things, ICT, smart solutions, and related technologies that increasingly inform each other's development.

This year, the Summit will introduce a novelty – its official program will now give the floor to the presenters from startups who will be able to showcase their innovations and business plans to the cream-of-the-crop business and tech leaders.

Speaking of them, this year's Summit will host more than 120 exhibitors from all corners of the globe, including global players and brands, 2500+ participants, and 3000+ meetings.

The concrete benefits provided by the Summit include a boost to the business performance of regional and global companies, support for the entrance and expansion of key global players in the local markets, and the promotion of investments by international companies in the broad range of sectors we provide a platform for.

Adria Security Summit Powered by Intersec is also a regional pioneer in the hybrid event format that gained prominence over the past few years. This year, the participants will be able to attend the presentations on the Connect2B platform in addition to their live iterations.

The event has already opened its doors to all participants, who can now register on the official website at <https://www.adriasecuritysummit.com/>. After registration, the participants will also be able to schedule meetings with other participants in the event.

All other information is available on the official website of the Summit, dedicated social media accounts, or via email at [summit@asadria.com](mailto:summit@asadria.com) or via phone at +387 33 788 985.
